PA NEWC

From the vantage point of surveying the weather outlook for the day at noon, it appeared that New have a perfect afternoon for football. Pa Newc is always cautious about predicting the weather. Only perfect autumn day as the New Castle Fair was in progress and Pa Newc made mention of the fact. About the time that the paper was ready to be printed, a terrific rain storm came up suddenly and upset all forecasts, with the consequent necessity of hurriedly stopping The News presses and eliminating the reference to the beautiful weather. Newc is not to be caught again.

Observers here suggested today that the public give full cooperation to Victor Wagner as his trained German shepherd dog "Vonnie" guides him along New Castle streets. Once in a while "Vonnie" errs, but not often. We know the pedestrians and motorists will be only too anxious to do so and to refrain from petting the dog. "Vonnie" is trained to guide his blind master.

For its opposition the Department of Agriculture has ample justification on practical grounds, but one of its proposals, obviously designed to mollify the commercial growers, appears no less absurd than the law itself.

As advanced by Secretary Wallace, the scheme is to take \$5,000,000 from AAA funds and use it to buy up "surplus" potatoes.
